Divorce & Money: How To Make The Best Financial Decisions During Divorce (Divorce And Money)

Synopsis

Divorcing? Get everything you need to split assets and debts as fairly as possible. When you're going through divorce, you have to make an overwhelming number of financial decisions. Should you sell the house? What happens to retirement benefits? How will you handle taxes? Full of sensitive and practical advice, *Divorce & Money* guides you through the complex process of making these important, and sometimes life altering financial decisions. It covers how to:- decide whether to keep or sell the house- protect yourself against misuse of joint accounts and credit cards- avoid tax problems- handle alimony and child support- divide debts fairly- avoid hasty decisions that could hurt you financially- reduce risks to your investments- understand how a court evaluates assets- gain financial stability as a single person The fully updated edition provides the latest tax figures and data, plus new information on dealing with credit problems, bankruptcy, foreclosure, and during or after divorce.

Customer Reviews

I wish I could give this book more than 5 stars. Whether you're being left or doing the leaving, are a career woman or a stay-at-home mom, the bread-winner or the dependent spouse--this book is for

you. The advice is immediate. The steps to follow are clear. The author is neutral and factual. This book was exactly what I needed to prepare for a collaborative law settlement, without it I would have been clueless and blindsided. It helped me to know which pitfalls to watch for and what questions I should be asking.

I've found the information in this book to be helpful so far, but I may not end up reading most of it because the Kindle version is driving me crazy. I'm a longtime Kindle user, but highlighting and trying to make notes with my Kindle Voyage is tedious at best. I wish I had gotten the paperback version as I think it would have been easier to go old-school with a highlighter. I would have preferred more real world examples to help break up some of the abundance of information. There are some there, but I have found myself wishing for more since it helps to me connect with the information easier.

The book is very good and thorough for uncoupled folks! I would recommend this to couples who are considering marriage and/or divorce. It is imperative to understand what you need to do to protect yourself under the law.

Very Informative. It's a necessity if you want to make sure your lawyer is doing everything possible.

Very good information. I recommend anyone contemplating divorce to read this book and be well prepared with questions for your attorney or Certified Divorce Financial Analyst.
