Star Wars: The Essential Atlas

Synopsis

Navigate the Star Wars universe as you never have beforeâ€”with this fully illustrated, full-color guide that maps the entire galaxy. You know the planetsâ€”from Alderaan and Corellia to Tatooine and Zonama Sekotâ€”and the star systems, from the Deep Core to the Outer Rim. But now, for the first time, you can pinpoint their locations and chart the travels of your favorite characters through the vast reaches of space. *Star Wars: The Essential Atlas* is a galaxy-spanning trove of vital statistics and information ranging from the astronomical and geographical (â€”Systems, Sectors, Oversectors, and Regionsâ€”) to the historical and political (â€”The Sith Empireâ€” and â€”The Great Hyperspace Warâ€”). Encompassing the entire Star Wars canon, including all the films, and the Clone Wars television series, plus the novels, comic books, video games, and more, this volume is packed with dozens of detailed maps and charts, as well as pertinent data and accompanying facts onâ€”the Empire: its length and breadth, political regions, populations, trade routes, major attractions, and trouble spotsâ€”the Clone Wars: the trajectory of this decisive conflict across the universe, data on key battles and major Loyalist and Separatist worldsâ€”the adventures of Han Solo: the heroic rogueâ€™s exploits throughout the galaxyâ€”including his captaincy of the Millennium Falcon and his first, fateful meeting with Chewbaccaâ€”before his life-changing alliance with Luke Skywalker and Obi-Wan Kenobiâ€”the Sith Wars: the progression of the universal clash between the ancient Jedi Order, their dark side counterparts, and the Mandalorian warriors who fought against both ordersâ€”and much, much more. From Hutt Space to the Unknown Regions, from the Knights of the Old Republic and Episode I to the Fate of the Jedi and Legacy era, *Star Wars: The Essential Atlas* is the ultimate gateway to space fantasyâ€™s most brilliantly imagined and endlessly intriguing galaxy.

Book Information

Paperback: 256 pages

Publisher: Del Rey; Original edition (August 18, 2009)

Customer Reviews

I bought this book because I wanted to start reading some of the Star Wars novels again, but was intimidated by how much the Expanded Universe has grown in the past decade. I remembered how much I liked the "essential" Star Wars guides when I was younger. Sadly, these books are also become somewhat redundant - with wikipedia - or Wookieepedia - nowadays, you can easily find information about the major Star Wars characters, species, and ships on the internet. Fortunately, Star Wars: The Essential Atlas is different. Unlike many other "essential" books, it is actually pretty essential if you really want to understand the galaxy. This isn't simply a bunch of pretty pictures (like the The New Essential Guide to Vehicles and Vessels). Rather, it is a collection of maps demarcating the borders of the major political groups and plotting the routes the main characters took in the movies and Expanded Universe. Finally, you can see where Tatooine, Hoth, and Endor fall in relation to each other. This is particularly useful if you want to understand some of the more convoluted military campaigns, such as the Thrawn series. There's absolutely nothing on the web that provides this level of information and detail. The book also has a section featuring several important planets - almost like the older
