Law And Literature: Third Edition

Synopsis

Hailed in its first edition as an "outstanding work, as stimulating as it is intellectually distinguished" (New York Times), Law and Literature has handily lived up to the Washington Post's prediction that the book would "remain essential reading for many years to come." This third edition, extensively revised and enlarged, is the only comprehensive book-length treatment of the field. It continues to emphasize the essential differences between law and literature, which are rooted in the different social functions of legal and literary texts. But it also explores areas of mutual illumination and expands its range to include new topics such as the cruel and unusual punishments clause of the Constitution, illegal immigration, surveillance, global warming and bioterrorism, and plagiarism. In this edition, literary works from classics by Homer, Shakespeare, Milton, Dostoevsky, Melville, Kafka, and Camus to contemporary fiction by Tom Wolfe, Margaret Atwood, John Grisham, and Joyce Carol Oates come under Richard Posner's scrutiny, as does the film *The Matrix*. The book remains the most clear, acute account of the intersection of law and literature.

Book Information

Paperback: 592 pages

Publisher: Harvard University Press; 3rd edition (April 30, 2009)

Language: English

ISBN-10: 0674032462

ISBN-13: 978-0674032460

Product Dimensions: 6.1 x 1.5 x 9.2 inches

Shipping Weight: 2 pounds (View shipping rates and policies)

Average Customer Review: 2.5 out of 5 stars [See all reviews](#) (4 customer reviews)

Best Sellers Rank: #770,346 in Books (See Top 100 in Books) #86 in [Books > Law > Dictionaries & Terminology](#) #6316 in [Books > Textbooks > Law](#) #6779 in [Books > Literature & Fiction > History & Criticism > Movements & Periods](#)

Customer Reviews

A bit testy and sometimes more argumentative than instructive in laying out the field. He has a real antagonism toward the left who write in the field and goes on about it too much. He also says he is less judgmental in this edition about the books, but he certainly isn't. You know without a doubt what he considers mediocre or bad, and good. So it is not an even-handed book, but it does cover the field well enough to merit reading.

Posner is not a dumb man, but early in this book he notes that the law and literature movement is so popular because it is a cheap way to hide shoddy scholarship. He certainly proves his point here. My hopes in this book were dashed early on by his "critical introduction," where he relates that "[l]aw and literature is a field with a wide remit" by using *Howards End* to show the ubiquity of legal issues in even a non-legal literary text. The examples he uses, though, are so superficially related to law (e.g., taking arguments among the protagonists as examples of poor legal reasoning or the contrast between justice and mercy) that I don't know why he bothered. He sometimes indulges in annoying tangents and bizarre readings of literary texts to promote his own agenda. His command of ancient Greek sources, the Bible, and Shakespeare is especially laughable, full of elementary mistakes and poorly worded generalities. Anyone who takes away from *Antigone* the message that "intense religious feeling can undermine social peace" or from *Lear* that the king's "failure to grasp the force of self-interest is his undoing" is seriously violating his own earlier recommendation to not make texts into what you want them to say. I tried to give this book a chance but after about the first third just couldn't take it anymore.

A wonderfully original and instructive study of what literature has to teach about the law, the methods of legal argument, and the interpretation of statutes and the Constitution.

What's scary about this volume is the fact that the author sits as a judge near the pinnacle of our legal system. He reads literature as little more than a collection of affirmations of his own opinions, and then develops arguments, which give a superficial appearance of logic, to support his opinionated readings. Except for some cherry picking to support his readings, he generally ignores the vast body of scholarship on these works. He distorts basic facts about many of the works he chooses to write about, raising troubling questions about what he must do when he sits on the bench and decides the fate of actual people.
