American On Purpose: The Improbable Adventures Of An Unlikely Patriot

Synopsis

In *American on Purpose*, Craig Ferguson delivers a moving and achingly funny memoir of living the American dream as he journeys from the mean streets of Glasgow, Scotland, to the comedic promised land of Hollywood. Along the way he stumbles through several attempts to make his mark—as a punk rock musician, a construction worker, a bouncer, and, tragically, a modern dancer. To numb the pain of failure, Ferguson found comfort in drugs and alcohol, addictions that eventually led to an aborted suicide attempt. (He forgot to do it when someone offered him a glass of sherry.) But his story has a happy ending: success on the hit sitcom *The Drew Carey Show*, and later as the host of CBS's *Late Late Show*. By far Ferguson's greatest triumph was his decision to become a U.S. citizen, a milestone he achieved in early 2008. In *American on Purpose*, Craig Ferguson talks a red, white, and blue streak about everything our Founding Fathers feared.

Customer Reviews

What really came across for me from this book were several aspects. For a man with so many downs dogging his early child and adult years, he has an admirable lack of self-pity. Perhaps it's because he has conquered so much by the time he writes this memoir. I was conscious, however, of his sadness of how his problems affected his relationships, especially his great female loves. I teared up when he had to sell the perfect little seaside cottage he had shared with his second wife when they finally split up - the act being a symbol of the loss simultaneously of hope, dreams, love. I am amazed at how he, and I suppose many males in general, accepts fighting fist to fist. As a

female, I can't imagine willingly enduring/participating in and even looking forward to a great fight as Craig does during his years growing up in Scotland. Maybe the blows don't hurt as much when you are young or when the senses are dulled by drunkenness...This is not to be interpreted as acts of an aggressive self-nature, self-hatred or self-punishment but was endemic to the immediate culture. This is a well written and serious memoir from a comedian told with frankness; not sparing the reader the darker moments fueled from the loss of great loves, very serious alcoholism, active drug use, career sputters, etc. What I really admire about him now is that he doesn't keep hitting you over the head currently on his talk show with these details. Unlike Carrie Fisher, for example, his current humor is not dependent on constantly referring to the past difficulties. He concentrates now on the positives and I suspect that's what keeps him on safer and happier ground.
