# Race Pimping: The Multi-Trillion Dollar Business Of Liberalism

## Synopsis

Race pimping has cost America TRILLIONS of dollars, as the money in race guilt is fantastic. Politicians line their pockets and those of family and friends, while delivering little to nothing to their constituents or the community at large.

Average Customer Review: 4.5 out of 5 stars [See all reviews](#) (72 customer reviews)

Best Sellers Rank: #115,548 in Books (See Top 100 in Books) #103 in [Books > Humor & Entertainment > Humor > Political](#) #200 in [Books > Politics & Social Sciences > Social Sciences > Specific Demographics > Minority Studies](#) #200 in [Books > Politics & Social Sciences > Politics & Government > International & World Politics > Asian](#)

## Customer Reviews

I have to admit I expected much more from Mr. Jackson. I only get to hear him for 30 minutes every week and his arguments are concise and without humor. Still I can appreciate this work and how he makes fun of the left. I understand his use of sarcasm and satire to make a point, I just expected arguments more like Dr Sowell. Still there is only one Thomas Sowell and one Kevin Jackson and that is truly a damn shame. The USA and world needs many more. Good book, enjoyable and easy read. I read it in 2 weeks and that was at work during breaks and lunch. Buy it and enjoy!

This book helped me understand things about the black race that I did not know. The writer is very knowledgeable and the book is well written. If you are one who wants to know me about 'race baiting and as he calls it race pimping' this is the book for you.

This book is honest , upfront, and exposes the issues within the black community that cause many not to rise to their potential. It is refreshing to hear someone talk about personal responsibility and accountability and to expose victimization and entitlements as liabilities and not assets to the Afro

American. The author also talks of how the Afro American has taken certain occupations to higher levels of performance. Look at what has been achieved in most of the sports world. A new level of performance and achievement. This did does not come easily because hard work, commitment, and discipline, is how these achievements were accomplished. The real success of this book comes in the author ability to use humor with honesty to expose short comings within the black community in such a way that it provides a subliminal encouragement to say "you can do this" because you were created by a creator who doesn't make junk but does have a plan for each one of us, regardless of race color or creed. The author emphasizes that it is time to stop listening to the past sirens of defeat and begin listening to the clarion call of victory and success. Definitely worth time to read, to learn and to grow. Tony Werner

The satirical format of the book was very appropriate given the gravity of the issue. Kevin Jackson exposes the tactics Sharpton and Jesse Jackson employ to profit from exploitation of the black community. With media and Democratic Party backing the force is almost unstoppable. Kevin Jackson delivers information that can spark real conversation regarding race and offer a way out from Sharpton's spell. A must read for any young person interested in politics, race relations, and media bias. The book has it all!

A great book by Kevin that can open the eyes of all Americans of all races to the knowledge that the FEW are exploiting the MANY to line their own pockets. By keeping any group of citizens in the dependency mode so the FEW can profit financially is a sad tale of our current politics. Kevin write a well documented book on a very important topic for the future of all. Readit and learn.

I've heard Kevin Jackson on TV a few times and must say I've been very entertained by his commentary about failed liberal policies. I didn't really know what to expect from the book but I did get plenty of laughs out of it. He comes across as very honest and adds the right touch of humor that will leave you grinning. I will definitely have to look into his other book "The Big Black Lie", its on my list for upcoming purchases. While I found this book to be humorous, I should point out that the author does share great examples of how some of the more notorious leaders (Jackson, Sharpton, etc ..) have profited in "stirring" up the masses.

We know that race hustling is a business. Jackson goes deep into how it is done.

First, I'm a big Kevin Jackson fan and listen to him weekly on St. Louis radio. I appreciate his wit and his sarcasm and found plenty of it in Race Pimping. I started out giving the book five stars but deducted one star because it really didn't teach me anything new. I deducted another star because I found nearly 50 errors that any rookie proofreader should have caught and corrected. If you're looking for a light, humorous read this book may satisfy you.
