Criminal Law And Its Processes: Cases And Materials (Aspen Casebook Series), 9th Edition

Synopsis

Highly respected authorship defines *Criminal Law and Its Processes: Cases and Materials*. Sanford H. Kadish, Stephen J. Schulhofer, Carol S. Steiker, and new co-author Rachel E. Barkow are nationally recognized scholars. Their cohesive intellectual framework views the law as an instrument of social control, providing an analytical tool with which students can interpret and understand doctrine. *Criminal Law and Its Processes: Cases and Materials* focuses on developing an understanding of principles and rules applicable to all crimes, rather than the detailed and disjointed elements of any particular crime. Cases-and-notes pedagogy, with excerpted materials, questions, and problems, illuminate the material. Problems enhance students' understanding of the basic principles by testing their applications and interactions in the context of particular offenses. The Ninth Edition preserves the continuity with its predecessors and makes little fundamental change in organization or coverage, retaining nearly all the principal teaching cases, with recent cases and illustrations added. The text has been carefully edited throughout to enhance the transparency of the organization and accessibility of the notes and questions. Text has been added that guides students--before and after main cases--to understand what those cases are designed to illustrate. Overall, the book features increased clarity and ease of teaching while preserving the book's challenging and sophisticated content. A completely reorganized and revised chapter on group crime includes more student-friendly treatment of accomplice liability and conspiracy that will facilitate the mastery of basic doctrine while emphasizing important policy questions. A new section on punishing corporations for criminal conduct includes an analysis of deferred prosecution and non-prosecution agreements. The updated theft chapter explores the important modern crimes of honest services fraud and identity theft. New problems also test students' understanding of traditional theft offenses as applied to modern technology and intellectual property. The chapter on rape has been dramatically revised with current examples of debates over force and consent as well as new notes on male rape victims and human trafficking. Revised coverage of the death penalty provides a balanced treatment of the issue, incorporates the latest empirical research, and offers new notes on the potential causes of racial discrimination. An updated chapter on homicide includes a completely new section on felony murder. Also revised is the treatment of proportionality; it includes recent Supreme Court case law under the Eighth Amendment and challenges to life without the possibility of parole sentences. The question of what to punish is now explored through the lens of teenage bullying. Finally, new sentencing materials have been introduced, including a case study of Bernie Madoff's sentencing. This case book is semi-decent. At least the authors write some of their own pieces, instead of merely copying and pasting other peoples' work, as is the case with most case books.

Nevertheless, the book is always "hiding the ball" and never just tells you what the rule is. I know the purpose of a law course is to explore the contours of the law, not just memorize the rules, but sometimes a simple rule does exist, and there is no reason to beat around the bush in that case.

this book is not my favorite at all. even though it provides philosophical information about certain cases and elements, it's not the most reliable book to read. i hate to say this, but it's completely boring...

Worst casebook of 1L. Clear political bias, loads of philosophy. Meanders through topics, extreme density. One upside: The paper it's printed on isn't reflective under lots of light, makes it easier to

read. That's about it.

The book's binding was completely undone when I received it but didn't have time to return and replace because the semester had started.

Book is nearly falling apart. Clearly it's old

This item is more highlighter than book. I have never rented before and I don't think I will again.

Actually, really love this one! Even with the tabs and notes, it is in really good condition and the notes helpful!!

I was initially intimidated by this book, because it is all words and no pictures. No, seriously ... don't laugh! Most of the college books I have are punctuated with graphs, photos, and the pages are broken up to save the reader monotonous reading. I enjoy the extra material in a text book. This book has no breaks in it; it is straight text. It is a big-boy book. And I loved every part I read. The cases were easy to digest. The expansion of the cases was easy to digest. The syntax and sentence structure used by the author was clear and concise. I do not remember finding a typo, either, which is odd for me, as I enjoy line editing. Between this book and the New York Gray Book (a copy of New York's most recent revised code), my understanding of criminal law expanded greatly. I highly recommend this book. I finished my criminal jurisprudence course with an A, and I still read this book from time to time, even though the course is long over. That I still read the book should speak for its quality; who reads text books for pleasure?
